

## Gov. Urges Tax Payment On 10-Yr. Plan

Cities Benefit Accruing to Property Owners and Local Government

Governor Frank D. Fitzgerald today issued a statement reminding tax-payers that they must act at once, if they wish to take advantage of the savings offered by the 10-year installment plan of paying delinquent taxes.

"September 1 is the deadline," the governor declared. "Those who paid their first installment last year, and those who wish to come under the plan by making two payments at once, will find it to their advantage, I am sure, to visit their county treasurer."

Last year, the governor recalled, treasurers' offices were jammed during the closing days, causing much inconvenience and delay. To avoid this, he urged that payments be made as early as possible.

While the state is standing the expenses of the tax-collection drive, Governor Fitzgerald declared it was acting merely as a collection agent. Ninety per cent of the delinquent taxes collected remain in the local community where they originate. They are used for the support of city, township, school district, or county government.

"The state is deeply interested," he explained, "for the reason that a self-supporting local government is the best kind of a government. It is managed by its own people. It is not subject to evils of remote control. Likewise, when a local community handles its own affairs, it does not become an additional financial burden to the state. The local unit of government, the state, and the people in general profit when taxes are paid."

It was Governor Fitzgerald who championed the advertising campaign for tax collection last year, which resulted in the payment of \$15,000,000 in first installments, of which \$13,500,000 went directly for the upkeep of local governments.

## Important Notice To Taxpayers

Returned delinquent taxes and special assessments for 1932 and prior years are due and payable at the office of the County Treasurer or Auditor General on or before Sept. 1st, 1936 and if such taxes and special assessments are not paid they will be sold as delinquent taxes. (See Sec. 6, Act 73 Public Acts of 1935).

The County Treasurer's office will be closed Aug. 26th and 29th but will accept taxes on the above plan Sept. 1st and 2nd.

Please bring your last tax receipt.

Wm. Ferguson, County Treasurer.

## Mercy Hospital Has Proven Its Worth

A very careful survey of Grayling Mercy Hospital reveals the imperative need of the following repairs and improvements: A new heating plant costing \$2,700; Re-wiring of hospital to meet fire insurance requirements, costing \$800.00; New equipment for obstetrical department, delivery room and nursery, costing \$2,500. This makes a total of around \$6,000.00. "It is imperative that the above repairs and improvements shall be made at the earliest possible date," stated Sister Theodore, Superintendent of Mercy Hospital Tuesday morning. Mercy Hospital is incorporated under the laws of the state of Michigan as a non-profit making corporation. No stocks are issued and no dividends are earned nor paid. The earnings of the institution are usually sufficient to pay its current bills but they will not pay for large repairs and improvements such as are needed at this time. The only way possible to secure these improvements is to ask the citizens living in the patronizing territory of the hospital to give their financial support.

Another outstanding need at Mercy Hospital is a new nurses home, where the nurses when off duty can be away and apart from the hospital. It is to be hoped that some public spirited citizen who is interested in the nurses profession will realize the importance of such a gift and make this home possible.

During the summer months the hospital has been over-crowded. Many times patients have been placed in the halls due to lack of room. This all goes to prove that efficient hospitalization pays; that Grayling must support this institution to the limit of its ability if we are going to be recognized as a great medical service station for this section of Michigan.

Since Mercy hospital opened its doors April 3, 1911, 10,252 patients have been admitted, representing 20 different religious denominations. The Sisters of Mercy and the Doctors have made the hospital one of the outstanding houses of healing in Northern Michigan. It has gradually improved in efficiency until today it is recognized by the American College of Surgeons, (the highest medical authority in the U. S.) as a "Grade A" institution, a distinction to be envied. Patients coming to Grayling from larger cities have the assurance that they will receive the best of care from graduate nurses and a staff of capable physicians. The hospital has been well managed. This is indicated by the fact that the mortality rate is 3.8% while the average rate in hospitals throughout the United States is 4.5%.

Last year 88 hospitals in the U. S. closed their doors due to

lack of funds, yet our little hospital kept going. The hospital has clearly demonstrated that it is a great asset as well as an outstanding institution in this section of Michigan. It stands out as a great service station to the sick and the suffering.

A. Ivan Pelter & Associates from Ludington, Michigan have been secured to assist the hospital in securing funds to make these improvements. During the next four weeks every citizen living in the patronizing territory will be asked to assist the hospital in its hour of financial need.

## Callaghan Faithful Friend of People

The record of Miles M. Callaghan in the Legislature is so outstanding that newspapers all over the state comment favorably now that he is a candidate for the Senate in the 28th District and here is the comment made by Harry S. Babcock, editor of the Record in Gratiot County and this editorial appeared in all of these publications:

"As the 1936 political campaign begins to get under way the editor of The Record is constrained to take cognizance of the qualifications of certain candidates and their ability and readiness to cope with pressing problems confronting the electorate.

While there is no Republican contest in the primary campaign for the state senatorship in our own district, the deadline for filing petitions with the secretary of state found two candidates running for the Republican nomination in our neighboring district—the 28th.

One of these candidates, Representative Miles M. Callaghan, of Reed City, is well known in Gratiot County and vicinity. It is the opinion of The Record that the 28th district is indeed fortunate in having so staunch a friend of the people as a candidate for this highly important office.

The editor of The Record has observed the record of Miles Callaghan in the state house of representatives over a long period of years and has come to the unbiased conclusion that he has given the Clare-Oscoda district one of the most understanding and efficient representations of any district in the state.

During his long term in the house of representatives Miles Callaghan has ever been a champion of the farmer. He has fought time and again for the rural interests of Michigan and always in the thick of the fray when the farmers' interests are at stake. As evidence of this fact, Representative Callaghan led the fight against Wayne county's efforts to reapportion the state and take present representation from the smaller counties.

Standing solidly on a platform of decency, economy in government and equitable legislation for his constituency, Miles Callaghan has always placed principle above politics and should receive the united support of the entire 28th district."

Interview.

Mr. Callaghan was in the Avalanche office Monday morning and while here we asked him what his attitude was regarding matters that specially pertained to Northern Michigan.

He replied that he had always been interested in the problems of Northern Michigan. "I have always been a strong fighter for good roads, schools and resort interests. For the benefit of Northern Michigan I took a leading part in passing legislation for the state appropriation of \$100,000 for advertising Northern Michigan as a recreational and tourist region.

"I have given a lot of attention to the growing sentiment for winter sports and have advocated state appropriation for such purpose. Already I have urged the construction of a shelter house at your Winter Sports park. You need this and the State should provide one for you."

"I was raised in Northern Michigan," he said, "and am interested in this part of the state, and I am urging more state activities in these so-called poor counties."

It is our privilege to have an intimate acquaintance with Mr. Callaghan and we know that whatever he says one may bank upon it that he speaks with utmost sincerity. He has had a fine experience in the house of representatives of Michigan and we know he is well qualified to assume such responsibility in the senate. We're sure he is the right man for that job.

CHILD DIES FOLLOWING SHORT ILLNESS

Little Joan Canfield, age 5 years old, of Beaver Creek, was taken suddenly ill Tuesday noon at her home and passed away last night at Mercy Hospital. She was the daughter of Mr. and Mrs. John Canfield Jr., and besides her parents is survived by one brother and two sisters, also her grandparents, Mr. and Mrs. John Canfield Sr.

The funeral will be held at 2:00 o'clock Friday afternoon with services at Michelson Memorial church.

## New Postoffice Site Selected

OWNERS CUT PRICES TO MEET DEMANDS OF DEPT.

The latest reports regarding the proposed new postoffice is that the department at Washington have selected the southeast corner site at Michigan and Peninsular avenues.

That contains the lots between the corner and Rialto theatre, and south including the former Insley home. The lot is slightly smaller than desired however its many other qualities seem to offset that feature. The streets on each side have a width of 100 feet which are an added value for car parking.

The original bid for that location called for \$6,800. The government has offered the sum of \$6,000. Owners cut their prices to meet this amount except the sum of \$200, which will be made up by other interests.

It is expected that the formal transfer of the property will be made soon.

A chain or real estate transfers are all ready to be made just as soon as the property owners get their checks from the postoffice department. This involves property along Peninsular avenue.

## Kiwanis Governor Visits Grayling

JOINT MEETING HELD WITH GAYLORD CLUB

Grayling Kiwanians had a red-letter day when they were hosts Wednesday evening to district Governor Vernon Chase of Dearborn, Lieutenant Governor Gladwin Lewis of Traverse City and members of Gaylord club. This was the first official visit by Gov. Chase and was the inspiration for a large gathering.

The meeting was held as usual at Shopingons Inn, where the assembly enjoyed a fine dinner. Kiwanians like to sing especially when song leader Frank Rockwell, song leader for Gaylord club, assisted in this part of the program.

President Emil Giegling turned the meeting over to Gladwin Lewis who presided. Kiwanians always like to hear Mr. Lewis but he insisted that this was Governor's night. He introduced the latter, telling of the vast amount of personal attention he is giving to Kiwanis affairs in Michigan and intends, before the close of his official term, to visit every club in the state.

President Chase resides in Dearborn where he is a teacher. He is about 6'4" feet tall and has a most charming smile and whenever he speaks everyone listens. He has a pleasing voice and easy bearing and one never becomes tired of listening to him, and one is impressed by his sincerity.

Among the highlights of his talk were the following statements:

Kiwanis is a good organization behind good leadership. It means mass production of good will, social service and friendships. Clubs are engaged in vital and useful work. They are dynamos for useful community service.

Trends or activities of the clubs are toward conservation in a big way; health camps; character conservation; citizenship conservation; American citizenship; modern business science; recreating American ideals.

Other trends are toward a widening scope of Kiwanian service—underprivileged children; wholesome recreation; winter sports; economy and efficiency in public schools; religion. Spirit of cooperation in the conduct of business; need to study the future. Continuity of service in community life.

There are 3,500 Kiwanians in Michigan. Pres. Chase pointed out some of the responsibilities of members. Every member, he said, can give service in his particular line of business. Searching thru the community to see what can be done.

The speaker suggested a "ways and means" committee in clubs whose duty it would be to study their community by careful research and recommend such service as they might determine was needed.

Kiwanians must take a lead in better governmental service.

A new club being organized at Manistee was welcome news, especially as it is to become a part of the 8th district group, of which Grayling is a member. Gov. Chase left Thursday morning for that city to assist in organizing the new club. Traveling with him were his wife and son Bill. Mr. Lewis was accompanied by Mrs. Lewis.

MRS. OSCAR HANSON HOSTESS AT LINCOLN LODGE

A very delightful luncheon was given by Mrs. Oscar Hanson to twenty-four ladies at Lincoln Lodge on the main stream of the AuSable river Tuesday afternoon. The luncheon was given in honor of Mrs. Albert Piper, and Mrs. Mason Reynolds, of Mason.

The afternoon was spent playing bridge, Mrs. Fred C. Burden of Detroit and Mrs. Harry Conline holding the two high scores.

## Hollywood Girl Interviews Lake Folk

(Special to the Avalanche by Shirley Koploy)

Colorful and interesting are a stranger's experiences at Lake Margrethe. Coming from Hollywood, California, a city well-known for its glamour and bright lights, I have naturally observed a contrast between the life here and there. Grayling is not a city of bright lights, but it has a certain glamour, a glamour that is taken from the rugged outdoors, the towering pines, and the wholesomeness of the people.

I have passed the summer at Lake Margrethe at the cottage of my Aunt and Uncle, Mr. and Mrs. G. A. Kraus of Chicago. My experiences here have been both entertaining and profitable, and I will return to California with the feeling that Lake Margrethe, Michigan, will always be my second home.

Perhaps a story of my visits, in the columns of the Avalanche, of the cottagers at the Lake may interest you. I have attempted to include timely facts and news, as well as notes on their personalities.

At my Aunt's cottage, at present, are Mrs. G. A. Kraus and daughter, Miss Elaine. Mr. Kraus is in Chicago, with their daughter, Miss Lois, who is recovering rapidly from an appendix operation. Mr. Albert Kraus, son, started work in Toledo, Ohio, last Monday, at the Champion Spark Plug company.

My first outside visit was at the cottage of Mr. and Mrs. William H. Strope, who gave me many "starters" needed for my interviews.

Having the details they supplied me, I saw the need for a theme for my column.

Mr. Strope suggested the question, "What is to be the future of Grayling?" and I immediately accepted it.

(I mention this, because you may not recognize it as the subject of the article. Before I had completed the interviews we had covered everything from movie-life in Hollywood to the raising of children, all interesting topics of conversation.)

Then at exactly 6:45 p. m. I set forth for my first formal inter-

view. I tried mainly for opinions of the future of Grayling—and here is what actually happened.

Mr. and Mrs. F. C. Burden, of Detroit, were enjoying the evening air with a house-guest, Mrs. A. Cohen.

I intruded with my name and identity, and was welcomed into an entertaining and humorous talk.

In response to my request for a late news item Mr. Burden dictated the following:

"Mr. and Mrs. F. C. Burden, of Detroit went out yesterday to visit their relatives at the poor-house."

I took his joking without protest.

Seriously, the Burdens believe that Grayling will always be "a lovely summer and winter resort, and a great stopping-off place for hunting and fishing."

On the week-end of Labor day, they will close up their cottage and wind up the season with a stag party for Mr. Burden.

Following are the expected guests: Mr. Harry Bullock, Mr. Fred Harvey, Mr. Earl Hasse, General Ed Heckel, and Mr. Fred Gould, all of Detroit.

The E. J. Cornwells, of Saginaw—the town recently damaged by storm—stopped at the Burden cottage on their return trip from Norway and Sweden and were entertained by Mrs. Burden.

Then I went next door, where Mr. and Mrs. Oscar Hanson were on their sun porch, speaking with two visitors, Miss M. Bauman, and Mrs. Woodson.

Queried on the future of Grayling, they expressed the hope that it will remain in about its present condition.

"The winter sports are going to help the town more and more," is Mr. Hanson's opinion.

He enlightened me on Grayling's past history and gave me a colorful picture of the winter sports. (Believe it or not, I have seen only one snowstorm during my life; and then, it was only two inches deep. At that, it sufficed to keep Los Angeles in a state of excitement for weeks.)

I asked Mrs. Hanson if there was any condition in town she would like to see improved upon, and she gave this answer:

"I would like to see proper accommodations for the winter sports visitors. It was hard to find a house the travelers from the snow trains in the past."

My conversation with the Hansons was very profitable. I learned much of Grayling's history

and, in turn, told Mr. Hanson a small item about Jean Hersholt, the actor, who is known in Hollywood for his kind good nature.

It was quite dark when I called on Mr. and Mrs. Jesse Schoonover and daughter, Miss Pauline, with which family I spent several hours.

In the course of the evening we remarked how the future of Grayling would be changed if oil was discovered here. I share the remark made by Mrs. Schoonover that she would like an oil well in her back yard.

(Peter, the Schoonover's eight-year old bull, brought us to the subject of dogs. Peter is a good friend of our bull-pup, Nickey, but is "not-speaking" to Fal, my aunt's nine-year old terrier.)

(Really, there is quite a large "doggy society" on the lake. I learned this morning from Mrs. Esbern Olson, who is planning to leave the lake for her Grayling home, soon, that one family holds the all-time record of five dogs. They have now three bulldogs and two terriers.)

A sudden rain came up, and under shelter of Miss Pauline Schoonover's raincape I hurried to the Kraus cottage.

I entered the house, feeling that my last call for the evening had, among other things shown me a truly loyal, loving Graylingite—Mr. Jesse Schoonover.

Before retiring I glanced at the clock. It was almost twelve, and I had made just three visits in five hours.

The next night I made one call, and it will make an interesting conclusion to my column.

Mrs. Molly Michelson had much to tell me of very close interest. She is a member of the Writer's Club of Detroit, and is a writer of poetry. (I am a poet, too, but I am also my only fan.)

(Mrs. Michelson has many memories, all entertaining. She was once a school teacher in Grayling, where my uncle was in her class.)

She has witnessed William Jennings Bryan teach a Sunday school of over two thousand students and also heard his argument on the Darwinian theory.

One story, that took place in Hollywood when she visited there, is one to remember. Mrs. Michelson was watching the filming of a movie, one which included an automobile hurtling over the edge of a cliff.

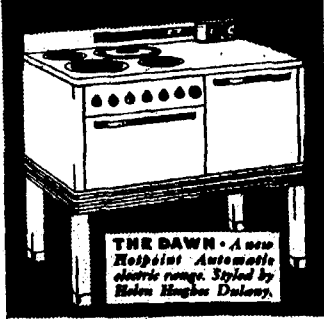

She noticed a man with a Chow dog, which she had never seen

**"JUST THINKS"**

Following are a few paragraphs taken from George Shaw's clever column "Just Thinks" published in the Pigeon Progress:

"And this is the kitchen," said the rental agent, showing the young couple around. "What's that?" asked the sweet young bride, with a toss of her head.

**Recreational Notes**

The schedule of the Crawford County Soft Ball League bring their regular season's play to a close except for the playoff between the winners of the first half (Spikes' team) and the winners of the second half.

The last regular games will be played this Thursday, Aug. 27, when Spikes play the All Stars at Wells' field and Blackies play the County at Chiefs' field.

In case Spikes' team should beat the All Stars in that game then the All Stars will have to play the game previously postponed with the County at Wells' field Tuesday, Sept. 1.

Standings to date:

	W	L
All Stars	7	1
Spikes	6	2
Blackies	4	4
County	0	8

After the schedule is finished we hope to have three games played between the winners of each half on Sundays or until one team has won two games, for the County championship.

The Cubs' (Boys team) are playing in Roscommon this week and we will have details of that game in the next issue.

During the last two weeks of play there have been some very good, close games played in the League. Results of play are:

Thursday, Aug. 20—Spikes 18; County 8.

Blackies 7; All stars 5.

Tuesday, Aug. 25—Blackies 8; Spikes 1.

All Stars 20; County 2.

Come out and see the playoffs. They will be good.

Some people believe it a case of insomnia but, after a bit of sleuthing on the part of Old Wellington, we find that it is merely a touching case of love at first sight. JUST looking at Axel Adverse, you know that he constantly crusades for truth. No one is going to pull the wool over his eyes when it comes to claiming gasoline mileage.

Anxious to be fair about the whole thing, we'll go a big step beyond Axel's contention and concede that no one gets "a hunert miles a gallon" with Standard Red Crown. But we do have every reason to believe that this excellent motor fuel gives as many miles per gallon as any gasoline you can buy—quite possibly more.

In any event, thousands of midwest motorists are getting the truth, first hand, in the World's Greatest Road Test, instituted by Standard Oil. Even though you may not be driving one of the Research Test Cars, it will pay you to...

## Landon Leads Roosevelt On Count Of First 75,000 Votes

By John Thomas Wilson

New York, August 24.—Approximately 100,000 ballots from 32 states in the Nation-wide Presidential Straw-vote, which is being conducted by newspapers in small town and rural America, poured into national straw-vote headquarters here during the last 10 days, thus affording the first state by state tabulation.

As between Roosevelt and Landon only, total of 69,802 votes, first tabulated returns from the 18 states, show:

Landon 37,937—54.5%  
Roosevelt 31,865—45.5%  
In some of the far outlying and smaller states the vote received here was yet too small to be included in the state by state tabulation. However, from 18 of the 32 states the vote was of sufficient volume to afford tabulation and present first returns sentiment in some of the key states. That these trends, as expressed in this first national tabulation, will hold throughout the poll might easily be the subject for many hot debates between voters, nevertheless here they are, as the many-times checked score sheet discloses them.

In the eighteen states the total vote of 74,703 are distributed to favorites candidates, as follows:

Landon 37,937—50.8%  
Roosevelt 31,865—42.3%  
Lemke 3,485—4.7%  
Thomas 720—1.0%  
Colvin 336—0.5%  
Browder 580—0.7%  
Total 74,703—100%

Below is the first release of state by state tabulation in 18 of the 32 states from which returns have so far been received by Publishers Autocaster Service, New York, which newspaper service company is acting in the capacity of national straw-vote headquarters:

In the 18 states below, where the first national returns were tabulated, Landon shows first majorities in 10 of the 18 states. They are as follows: Illinois, Indiana, Iowa, Maryland, Minnesota, New Jersey, New York, Oklahoma, Pennsylvania, and Virginia.

Roosevelt shows first majorities in the 8 following states: Florida, Kentucky, Michigan, Nebraska, North Carolina, North Dakota, Ohio, and Texas.

First Figures For Debates  
Despite some seeming political inconsistencies shown in these first national returns, as the state by state tabulations are studied separately, the release of first figures always afford a basis for speculation and discussion which voters everywhere enjoy. As points in question the vote in Ohio, Virginia, and Maryland might easily start quite lengthy discussion between partisan folks.

On the other hand, the Michigan and Minnesota vote is of sufficient volume to bear out the percentage average of the entire poll to date and thus justify the total returns as presented above for first perusal.

Clip and vote the ballot today for your favorite candidate.

Roosevelt	Landon	Lemke
Florida 1,539	1,188	135
Illinois 1,296	3,807	135
Indiana 675	2,025	25
Iowa 594	2,619	269
Kentucky 287	108	105
Maryland 621	2,079	79
Michigan 4,671	4,401	513
Minnesota 4,104	5,373	1,187
Nebraska 1,809	1,138	—
New Jersey 1,134	2,728	53
New York 1,189	2,268	185
North Carolina 756	594	—
North Dakota 621	595	187
Ohio 6,075	3,348	405
Oklahoma 729	1,107	49
Pennsylvania 702	2,808	77
Texas 4,239	864	215
Virginia 594	837	—
Total	31,865	37,937

## BANKING SYSTEM SHOWS PROGRESS

State Bank Resources Grow More Than Three Billion Dollars in a Year

### NATIONAL BANKS GAIN

American Bankers Association Gives Details of Banking Institutions — Notes Stronger Conditions

NEW YORK — Continued improvement in the condition of state chartered banking institutions, with an increase of more than three billion dollars in a year in total resources, is shown in a report just issued by the State Bank Division of the American Bankers Association.

The report was prepared by the division's Committee on State Bank Research from data furnished by state banking departments and parallels data issued by the Comptroller of the Currency for national banks which show similar improvements.

"The combined resources of 10,473 state supervised banks were \$35,724,320,000 as of December 31, 1935," the state bank report says. "Total deposits amounted to \$30,526,920,000. Total loans and discounts stood at \$12,430,404,000 and total investments were \$14,170,421,000."

A year previous, tables in the report show, there were 10,644 state supervised banks, with combined resources of \$32,680,207,000, total deposits \$27,297,959,000, loans and discounts \$11,060,023,000 and investments \$12,582,325,000.

### Classes of Institutions

Of the reporting state banking institutions on December 31, 1935, 82% were commercial banks, the report states, 9% trust companies, almost 9% stock and mutual savings banks and less than 1% were private banks. The report adds:

"The parallel upward movements of deposits and total invested funds of total state supervised banks during the years 1934 and 1935, after declines in these items in 1932 and 1933, are indications of definite steps toward recovery in state banking."

"Based on figures assembled for total state supervised banks on resources and liabilities as of December 31, 1931 to 1935 it is noted: (1) that deposits in 1935 rose approximately 12 per cent over the previous year, as compared with an increase of about 9 per cent in 1934 over the year 1933, and declines of 7 per cent and 12 per cent in 1933 and 1932, respectively, from the preceding years of 1932 and 1931; and (2) that total invested funds increased by approximately 2 per cent in 1935 and also in 1934, while they had decreased by 9 per cent in 1933 and by 11 per cent in 1932."

### Analysis Shows Stronger Position

In a survey and analysis of earnings and expenses of state banks doing a commercial business, it is brought out that in a majority of states they have increased their earning ability during 1935. On the basis of data covering 7,928 banks in 42 states, the report says:

"The most significant fact to be pointed out is that new profits of state banks—after deducting charge-offs on loans, investments, etc., and adding recoveries were shown in 37 of the 42 states which reported in 1935, in comparison with net profits in only 11 of the 35 states reporting in 1934. Measured in terms of dollars per each \$100 of invested funds, net profits in 1935 ranged between \$2.40 and \$10.00, with 19 states showing profits of \$1.00, or over, per \$100; while in 1934 net profits did not exceed \$1.20 per \$100 and only three states showed profits of \$1.00, or over."

### Bankers Help Farmers

The conviction that 4-H Club work lays the foundation for sound citizenship and intelligent farming influenced a New York City bank executive to contribute \$500 to the Agricultural Committee of the State Bankers Association to further 4-H Club activities in the state. "I am convinced that the work is so worthy, and is being so well handled that it should interest those who believe in building sound citizenship, as well as intelligent farming for the future," he said.

Unusual prominence was given this past year to agricultural work by the Tennessee Bankers Association. The Agricultural Committee report reveals hearty cooperation between bankers and extension workers. "Key bankers and county agents have been in closer contact than ever before," it says.

Georgia bankers have given both moral and financial backing to a Marketing Project sponsored by the Extension Service of the College of Agriculture, and activities the past year showed significant results. The phases of the Marketing program emphasized in the year's work are: the retail curb market; roadside marketing; miscellaneous marketing (suited to the locality); barter (exchange of commodities or services with neighbors); standard food canned products for sale prepared in homes or canning centers.

## What S. Cobb Thinks about

Woes of French Hotelkeepers.

SANTA MONICA, CALIF.

—As he gazes forth on a boulevard full of rampaging Reds and thinks about his empty bedrooms, I'll bet there isn't a hotel keeper in Paris who wouldn't trade a great gross of assorted French communists, including all the standardized grades, such as the comparatively rare stick type, the partly haired-over hybrid and the common fur-bearing variety, for just one old-fashioned easy-going American visitor—the kind that was too care-free to check up the weekly bill.

Private Olympic Games.

ORIGINALLY these Olympian games were based upon the ideal of strengthening inter-racial friendships through competitive sport.

But when, in dispatches from Berlin, a fellow reads of disputed decisions, questioned reversals, alleged discriminations against some winning contestants on account of color, and the unnecessarily brutal publicity, or so it appeared at long distance, that was given to the disciplining of an indiscreet woman athlete, and then the threatened withdrawals of aggrieved teams from certain Latin countries, he gets to thinking, the reader does, that maybe it would be better if each national group held its own little private Olympian show on the home grounds and barred out the foreigners.

Uncle Sam's Alien Burdens

NO MATTER which party controls congress, watch at the next term for this: A campaign for legislation opening the doors to millions of aliens now barred out under the quota law, which also would legalize the presence here of a great mass of the foreign-born, some of them criminals, some misfits and malcontents, some avowed enemies of our government, some paupers on Federal relief, who already are bidding amongst us through wholesale smuggling-in, through fraudulent immigration papers, through carelessness—to use a gentle term—on the part of public servants charged with the duty of guarding at the gate.

In the years before us, it will be a sufficiently heavy burden to care for such of our own worthy home-folks, whether native or naturalized, as otherwise would go destitute.

Cleverness of the Chinese.

ONCE, long ago, I, being a reporter, was detailed to accompany to police headquarters in New York a Chinese prince who'd come over to study our police methods. We were in the Bertillon bureau, presided over by the famous inspector Faurot.

"Ah, yes," said the courtly visitor in faultless English, "this same system has been in vogue in my land since time immemorial, except that we use fingerprinting in addition to legal signatures and official seals, for further validating important documents."

"Don't you also use it for recording habitual criminals?"

"I do not think so."

"Well, then," asked Faurot, "how do you identify them?"

"Very simple," said the prince and smiled a gentle smile. "When we catch a chronic offender we immediately cut off his head, and then anyone may recognize him at a glance."

The Spanish Extravaganza.

A FELLOW picks up the paper and reads in the news dispatches from Spain that the Loyalists licked the Royalists, or vice-versa; and the Leftists tied into the Nationalists again—or maybe they're both the same.

Whereas the insurgents walloped the radicals, but elsewhere the government forces drove back the rebels; and meanwhile the Reds or the Centrists or somebody did something unpleasant to the Republican outfit, as opposed to the monarchial group; and at all points south and west the anti-clericals and the church, the Agrarian party, the Fascists and the Communists, the besiegers and the defenders, the peasants and the townspeople, the laboring classes and the aristocrats, the land-owners and the tenants, etc., etc., etc., were snarled into various hard knots. So what?

If, after all, there are but two main sides engaged—only I wouldn't know about that—the correspondents could confer a great boon by just naming one set the Hatfields and the other set the McCoyes. Or would you prefer calling them the Callahans and the Murphys?

## Tax-payers:

Keep your tax record clear

... make second payment

on the 10-YEAR PLAN

by September 1st, 1936

TAX-PAYERS of Michigan last year set a notable example for the people of America by paying or reviving their taxes on hundreds of thousands of pieces of property.

Many thousands of tax-payers cleaned up their back taxes in full. Other hundreds of thousands put them on a ten-year plan by paying one-tenth of their total indebtedness for 1932 and prior years.

Now the second payment is due. It amounts to only one-tenth of the amount involved, and to it must be added a carrying charge of 4%.

Don't miss making this payment.

And remember: if you failed to put your taxes on the ten-year plan last year you can still do so by making the first two payments, plus 4%, and a small extra charge on the first part.

### Note:

By paying up your taxes now on the 10-Year Plan you save 8% to 36% on future payments.

MICHIGAN'S 10-year plan, as enacted by the legislature, provides that on unpaid balances the taxpayer is to add interest at the rate of 4% per annum from September 1, 1935. In other words, on this year's installment the interest charge is 4%. On next year's, 8%. In 1938 it will be 12%. In order to save these advancing costs you can now anticipate all payments by adding only 4%.

## "Common Sense-- Brains--Training"

—MIDLAND REPUBLICAN

The following Editorial from a recent issue of the Midland Republican is significant because of the fact that Midland County is not included in the 34th Judicial Circuit. It represents an impartial evaluation of John Shaffer as a candidate for Circuit Judge:

### OUTSTANDING ATTORNEY SEEKS JUDGESHIP

A race is on in the 34th Judicial Circuit to fill the post of Circuit Judge held for many years by the late Judge Guy E. Smith, of Gladwin. There are several candidates in the race including E. A. Bilitzke, formerly of Cheboygan, who was appointed to fill the vacancy, C. B. Wilmut, Gladwin attorney, and John C. Shaffer, Gladwin probate judge.

Mr. Shaffer is well-known in Midland County where he has appeared numerous times and his legal ability is recognized. One of the outstanding cases which was closed up by him was that of the Wolverine Power Co. He brought together the opposing interests including the bondholders, general creditors and stockholders under a plan which was agreeable to all and was approved by Federal Judge Arthur J. Tuttle. And this after those interested had been in litigation for some three years. This certainly was an outstanding accomplishment and provides a fine lesson in refinancing and the benefits to be derived from compromise.

Judge Shaffer was born in Gladwin and has been in practice there for more than a quarter of a century. For 16 years he was prosecutor and has also held the post of probate judge for many years. He seems eminently fitted for the post he seeks, and although he is outside of our circuit, we feel with his other friends here that his choice would place a man of great ability in a post where common sense, brains, and training are needed.

Before we write this last column, we would like to thank our editor for the fine way which he has helped us with our work, and we wish to also thank the people along the river for their cooperation, and the readers of this column. It has been a pleasure to work for the Avalanche.

The storm of the past week seems to have injured the fishing, but we still have hopes that it will improve. Even a Stephan passed by the other day with only one fish. Nevertheless, the fishing may show a great improvement next week if the weather is good.

Last week end Mr. Frank Barnett's new cabin was opened by his son, Allyn, and family of Detroit. It certainly is good to see new people along the river.

Staying at the Dan Babbitts this week we find Mr. and Mrs. Halbrith from Jackson; Art Seeham from Akron, Ohio, and "Pop" Cleveland from Cleveland, Ohio; also, Mr. Lawwell and Mr. Ginther from Dayton, Ohio flew up for the week end and before leaving, they circled the Babbitts' cabin in their plane. Mr. and Mrs. Bugby from Toledo, Ohio, were also staying at the Babbitt cabin last week. Business couldn't be much better.

At Mrs. Nettie Stephan's new cabins Mr. Borden and Mr. Sink have been enjoying the wild life. Mr. Willbe, Mr. Duller and Mr. Keoko from Detroit have also been staying there. Mrs. Stephan says that she wishes the fishing would improve, as well as the weather.

During the month of July, 184 coyote pelts were turned in to the state for bounties, as well as 68 bobcats and 6 wolves.

The Don Hendersons have had the usual crowd at their cabin this week: Mr. and Mrs. McGraph of New Haven; Mr. and Mrs. Glaser of Detroit; Mr. and Mrs. Powell of Canton, Ohio; and Mr. and Mrs. Eaton of Akron, Ohio. Mrs. Henderson says that she is sorry to see the river news end for this year.

We will certainly miss "Knobby" Stephan and his wife as they are moving to Sebawaing, Mich., next Sunday, where Knobby has a job on a dairy farm. We know the fish will miss him, and will probably be greatly relieved when he goes. Good luck!

Mr. and Mrs. Himeloch of Detroit have rented a cabin from Mrs. John Knecht for a week and one-half pound rainbow was caught near her place last week end, but fishing in general has been poor.

(By Jack Redhead)

At this point the narrator suddenly remembered that pressing matters demanded his attention elsewhere, and dashed off with: "Take it away Maestro, and spin 'em a tall story. . . one that is true of course, but unique and unusual!"

We know not whether he goeth albeit we suspect he forgot a package of cigarettes at the summer home of a local oil magnate where he has been once recently. At any rate we feel that, if it is a tall story he wants, there dwells another in the neighborhood who is much better qualified to deliver the goods on a moment's notice than your humble servant. However, with Allah as my witness, I set forth the following, and will attest to its truth:

It seems that one day Roger Kneff was doing a spot of fishing on Lake Margrethe, and spotted a large doe swimming across the lake. Having blisters on his hands and feeling disinclined to row, he conceived the idea of throwing a rope over her head for a tow so he could go places without effort, and recline languorously in the stern as befits a true lover of nature. This worked swell until the doe neared shore and was able to get a good foothold, whereupon she gave a wild leap and unseated our budding pilot into the lake. As the canoe was still firmly attached to her neck, she started to drag the canoe with her, and disappeared in the vicinity of Bear Point. Mumbling something incoherent, but which smelled of sulphur, Roger gave chase but to no avail—He was unable to locate either canoe or doe. This in itself is entirely within the bounds of possibility, but the sequel—well, listen.

The following summer Roger was again making life miserable for the fish in Houghton Lake when he saw in the distance, his canoe lost as described above the preceding year in Lake Margrethe. He immediately cranked up his Lockwood and gave chase. Imagine his surprise, as he drew near and found not only his lost canoe, but the same doe still towing it. . . and in the canoe were two fawns. We reserve comment.

We are willing to admit that modesty is becoming, but not to the point where one hides his light under a bush so to speak. Further, we do not mean to criticize the work that has gone before in this column, but our esteemed colleague has purposely omitted news items pertaining to Camp Ginger Quill fearing some might think he was trying to call undue attention to the activities of his immediate family. We feel that news is news, so why not recount the comings and goings here as elsewhere. We will risk this possible criticism this time by slipping in the following:

We were much pleased last Sunday when Mr. R. Spencer Bishop and entire family, of

Flint, stopped in to exchange greetings. Mr. Bishop looks unusually well, bearing no indication whatever of his encounter with a wildcat here last May.

Henry B. Smith III and his cousin Franklin Smith took off Monday for a canoe trip to Oscoda.

Jack Chiera and Paul Seiler of Detroit spent the week end as guests of Henry Smith. A pair of fine lads, and we are genuinely sorry that their fishing was not more successful.

Henry Reniger of Lansing is going in for stream improvement in a big way. . . cleaning out all dead trees on his holdings and skidding them to the river for trout hides. This should make a marked improvement in fishing near his place in the future. If more of this work were done and less garbage and refuse thrown into the stream, conditions would be more favorable from every angle. Mr. Reniger tells us that he found it necessary to fence and post Camp Dewey because of the undesirable people who misused the camp site. Two fires were started there in one week through carelessness. It seems a great pity that all must be denied the use of this time-honored spot because of the carelessness of a few, but we cannot but feel that Mr. Reniger is fully justified in his action.

## Lovells

Mr. and Mrs. Alvin Goff, and family, of California, spent some time in Lovells. Mr. Goff owned a fur farm in Lovells about twelve years ago.

Mrs. Bill Vollmer and daughter, of Frederic, visited her daughter Mrs. Elmo Nephew.

Miss Emma Louise Pochelon, of Detroit, enjoyed her birthday with her parents, Mr. and Mrs. Albert Pochelon.

Dr. Shannon is building a cottage on Shoepack Lake. Mr. and Mrs. Fred Lowrie and son of Detroit, enjoyed a few days at Big Creek Club.

The next day, Mrs. Michelson saw an article in the paper, describing the man and his dog. She was very surprised and interested to read his name. It was "Fighting Jim" Corbett, the well-known pugilist!

I could write many words on Mrs. Michelson's fascinating conversation, but the bottom of the page will soon be slapping us in the face—so, it's goodbye, friends of Grayling.

## Michigan Press Commends Work of

## Judge Edward A. BILITZKE

JUDGE BILITZKE

State-wide Approval of Judge Bilitzke's appointment was editorially expressed in the DETROIT NEWS of May 7, 1936:

"For his appointment of Edward A. Bilitzke to be circuit judge of the Thirty-Fourth Judicial Circuit, Gov. Fitzgerald is to be commended. It is in keeping with the ideals of civil service which the Governor frequently has advanced.

"Bilitzke has rendered good service as an assistant in the Attorney-General's office during both Democratic and Republican regimes of the last five years. He has judicial temperament, adequate training and approved experience.

"In announcing the appointment, Gov. Fitzgerald said: 'Through efficient and conscientious service to the State, Bilitzke won promotion'.

"Making appointments by that rule is the right way to build up public service."

*Meritorious Public Service rendered by Judge Bilitzke should be rewarded by retaining him in his present office of Circuit Judge.*

Don't forget that "Bill" Green's "10c An Acre Bill" has saved Crawford County Taxpayers thousands of dollars in taxes. By reason of his bill the townships and school districts of the county have received from the State, \$36,000.12, tax on State controlled lands in this county. Other northern counties have likewise benefited through his bill.

Since 1931 a bill has been introduced at every session of the legislature to repeal the bill but through Mr. Green's efforts it has been retained. Keep him on the job.
